

ArthRight

A New Approach To Rebuilding Joints Utilising a Unique Combination of Nutrients With A Proven Track-Record

After extensive background research and countless hours of compiling published research in professional journals and phytotherapy texts, our biochemist has designed a formula that we believe will revolutionize the treatment of deteriorating joints and cartilage. Many health care professionals have related to us their use of individual nutrients, both alone and in combination, in treatment of joint and cartilage damage. Our goal was to design, in a single tablet, all of the most useful and effective supplements that nature, research and healing experience could provide. The result is a product we call ArthRight and we believe that you will be very impressed with it.

Look closely at these ingredients and our rationale then give ArthRight a try.

Chicken Cartilage II (patented Cell Renew®), also known as collagen type II, specialized extract high in glucosamine and chondroitin sulfate, hyaluronic acid and collagen, a protein that is an integral part of cartilaginous tissue. Several studies have confirmed its effectiveness in arthritic conditions.

CMO, also known as Cetyl Myristoleate (actually cerasomal-cis-9-cetylmyristoleate), is a medium chain fatty acid which has been shown in studies to be a potent weapon in the fight against both rheumatoid and osteo arthritis (as well as rheumatoid arthritis' close relation Lupus Erythematosis).

Glucosamine Sulfate and **Chondroitin Sulfate** long known to aid in the rebuilding of cartilage by provision of components of its structure.

MSM (an oxidation product of DMSO) is a potent anti-inflammatory, has pain-relieving properties and provides important building blocks for collagen.

Manganese is essential for the formation of new cartilage and synovial fluid as well as bone formation.

Standardized Extracts of **Turmeric**, an herb with potent anti-inflammatory and anti-oxidant properties and **Boswellia serrata** that has its own unique anti-inflammatory and anti-arthritic properties that are enhanced in combination with other nutrients according to studies.

Currently, ArthRight is packaged in 60 tablet bottles. Larger sizes coming soon!

List of Ingredients

Supplement Facts			Manganese (as Sulfate)	8 mg	†
Serving Size: 1 Tablet			† %RDI Not Established		
Servings per Container: 60 Tablets			*% Daily Values are based on a 2000 Calorie per day diet		
Each Tablet Contains:	Amount per Serving	% Daily Value*	Also Contains; Croscarmellose Sodium, Silicon Dioxide, Vegetable Stearate, and Pharmaceutical Glaze.		
Chicken Cartilage II (Cell Renew)	120 mg	†	Recommendations: 1-2 tablets three times daily or as otherwise directed		
Glucosamine Sulfate	450 mg	†			
Chondroitin Sulfate	200 mg	†	Distributed By: Rainrock Nutritionals Westerville OH 43081 877-204-1953		
Turmeric (Standardized Extract)	50 mg	†			
Boswellia Serrata (Standardized Extract)	75 mg	†			
MSM	50 mg	†			
CMO (Cetyl Myristoleate)	30 mg	†			

ArthRight was designed for use in the following conditions:

**Osteo Arthritis
Rheumatoid Arthritis
Lupus Erythematosus
Disc Deterioration or Damage
Hair and Nail Weakness**

Suggested Use Directions: Use one or two tablets two or three times daily as a general guideline. Many respond well within this dosage but some may require less and some more to see the full effect. It is possible that some time may be required to notice maximum results depending on the patient. Some people do not exhibit the full effects from the use of CMO for up to 8 weeks (this is rare). The anti-inflammatory, pain relief and cartilage rebuilding properties should begin to be seen in a few days.

Some of Rainrock Nutritionals synergists for this formula are:

Adrenal Force, Arthroflex, Bioflav C, Boro Cal Plus D, Boro Cal Mag, Chondrosamine, Co-Enzyme Q10 (capsules or sublingual tablets), Disc Support, DLP A Complex, Fibromalate, Glucosamine Sulfate 500, Magnesium Forte, MSM 1000, Niacinamide 500, Omnizyme or Omnizyme Forte, Osteoplex, Shark Cartilage, Super 15.
