

# Chelation Complex

## NOT Just Another Oral Chelator

A New Innovation from Rainrock!

Chelation Complex has been specially formulated by a biochemist to meet the exacting needs of today's Health Care practitioner.

Chelation Complex is a uniquely designed blend of the finest vitamins, minerals, herbs and other nutrients in combination with a specially formulated enzyme mixture that is an excellent adjunct to intravenous chelation therapy and also works as a stand-alone. Every oral chelation formula contain some of the same nutrients as Chelation Complex but none contain the same complete combination designed to enhance catabolic metabolism including our unique blend of enzymes, a Rainrock Nutritional's specialty.

Chelation Complex is manufactured using our special two-phase tableting process. This process allows us to specify where nutrients and enzymes are released for maximum absorption and efficiency. This unique process is the same one that Rainrock Nutritional's has used so successfully in our Gestall HCl and Gestall digestive aid formulas.

Please note that Chelation Complex Does *NOT* contain EDTA. EDTA administered orally in a formula containing minerals is counterproductive since EDTA will chelate these minerals first. Compare the Chelation Complex ingredient list (included on the reverse) and our price with the oral chelator you are currently using and then make the switch to the most advanced chelation formula available today.

By the way, we think that will like the price! Available in 180 tablet and 360 tablet sizes.

*Designed for Your Health By Professionals*

## List of Ingredients

Supplement Facts Serving Size 1 tablet Servings per container: 180			Each two-phase tablet contains			N,N, dimethylglycine		15 mg	#		
			Stomach Phase		%RDI	Betaine (Anhydrous)		50 mg	#		
Amount per Serving			L-Cystine		45 mg	#	Cayenne		5 mg	#	
			DL-Methionine		25 mg	#	Chlorella		100 mg	#	
			L-Taurine		20 mg	#	Hawthorn Berry (4:1)		10 mg	#	
			L-Carnitine		3 mg	#	Yarrow (4:1)		5 mg	#	
			Glutathione		3 mg	#	Garlic (4:1)		5 mg	#	
			Beta-Carotene		50 IU	#	Red Clover (4:1)		5 mg	#	
Vitamin A			Silicon		10 mcg	#	Ginger Root (4:1)		5 mg	#	
			Vitamin C		335 mg	558	Selenium (Chelate)		10 mcg	#	Gentian Root (4:1)
Vitamin B6			Vanadium (Chelate)		10 mcg	#	Gugulipid		5 mg	#	
			Vitamin B12		45 mcg	750	Germanium (Chelate)		10 mcg	#	Duodenal Phase
Niacin			Chromium (polynicotinate)		10 mcg	#	Trypsin		75 mg	#	
			Folic Acid		70 mcg	18	Choline		10 mg	#	Bromelain (600 GDU/g)
Biotin			Inositol		10 mg	#	α-Chymotrypsin		3 mg	#	
			Vitamin D		35	9	Rutin		10 mg	#	Pancreatin (4X)
Vitamin E (Mixed Tocopherols)			Glycerine		5 mg	#	SOD (8000 Units/g)		25 mg	#	
			Calcium (aspartate)		38 mg	4	Bioflavonoid		10 mg	#	Lipase
Magnesium (aspartate)			α-Lipoic Acid		10 mg	#	Catalase		25 mg	#	
			Zinc (Sulfate)		1 mg	7	MSM		25 mg	#	#RDI not established
Copper											

Also Contains: Cellulose, Croscarmellose Sodium, Stearic Acid, Silicon Dioxide    \*%Daily Value based on a 2000 Cal/day diet

**Chelation therapy has been reported in journals to have been used successfully in the following conditions:**

- ▶ Heavy Metal Toxicity
- ▶ Atherosclerosis or Arteriosclerosis
- ▶ Poor or Sluggish Circulation
- ▶ High Blood Pressure
- ▶ Angina
- ▶ Intermittent Claudication
- ▶ Impaired Metabolic Function
- ▶ Varicose Veins
- ▶ Raynaud's Syndrome
- ▶ Buerger's Syndrome
- ▶ Loss of Mental Acuity
- ▶ Hearing Impairment Due to Poor Circulation
- ▶ Vision Impairment Due to Poor Circulation

**Some of Rainrock Nutritionals synergists for this formula are:**

Bioflav C, Cardioplex or Heart Formula Plus, Co-Enzyme Q10 (capsules or sublingual tablets), Fiber Form, Garlic Forte, Grape Seed Plus, Green Tea Extract, Omnizyme® or Omnizyme Forte®, Super B15, Esterified C, Vitamin C or Vitamin C Time-Released

Remember heavy metal toxicity, impaired circulatory function and similar conditions that will potentially respond to oral chelation therapy developed over long periods and usually from poor dietary habits. You may not always see a fast response to the therapy. Full restoration of health may take weeks or months and must be coupled with a change in health habits, including diet and daily exercise.
