

Gestall™ and Gestall™ HCl

The Finest Digestive Aids Available

More Great Things from Rainrock!

Gestall™ HCl and Gestall™ are potent combinations of proteolytic, amylolytic and lipolytic enzymes with herbs, amino acids and lyophilized digestive tissue. Each product is specially designed using our exclusive two-phase tableting technique to meet the special digestive support needs of your customers.

Gestall™ HCl is designed for customers who need hydrochloric acid supplementation. Betaine HCl and Glutamic HCl are contained in the stomach phase of the tablet. The stomach phase also contains the enzymes pepsin and papain for protein digestion, Gentian root and Ginger root extracts for support and enhancement of gastric juice excretion and lyophilized stomach for support of the organ. The duodenal phase of Gestall™ HCl contains the enzymes pancreatin, pancrelipase, amylase and bromelain to aid the digestion of proteins, starches, simple sugars and fats as well as ox bile extract to help emulsify fats and lyophilized duodenum for organ support.

Gestall™ is designed for customers who do *NOT* need hydrochloric acid supplementation. The stomach phase of Gestall™ contains the amino acid L-Glycine (deficiencies of this amino acid are often linked to acid stomach), the enzymes pepsin and papain to facilitate protein digestion and Ginger root extract to help gastric secretion. The duodenal phase of Gestall™ HCl contains the enzymes pancreatin, pancrelipase, amylase and bromelain to aid the digestion of proteins, starches, simple sugars and fats and ox bile extract to emulsify dietary fats.

No other Formulas contain the combination of enzymes, herbs lyophilized gland concentrates and support designed to improve and enhance digestion and relieve a number of the problems related to poor digestion.

Compare Gestall™ HCl and Gestall™ with the digestive aids you are currently using. We know that you will be impressed with the results and so will your customers. We also think that you and your customers will like the price.

Both Gestall™ and Gestall™ HCl are available in 100 tablet sizes.

These digestive support products have been designed to provide maximum support in the following complaints:

- ▶ Hypochlorhydria (Gestall HCl)
- ▶ Hyperchlorhydria (Gestall)
- ▶ Gas
- ▶ Bloating
- ▶ Poor Protein Digestion
- ▶ Poor Fat Digestion
- ▶ Poor Carbohydrate Digestion
- ▶ Gastritis
- ▶ Osteoporosis
- ▶ Pernicious Anemia
- ▶ Allergies (Food and Systemic)
- ▶ Chronic Diarrhea
- ▶ Malabsorption
- ▶ Celiac Sprue
- ▶ Eczema
- ▶ Psoriasis
- ▶ Dermatitis
- ▶ Rosacea

Some of Rainrock Nutritionals' synergists for these formulas are:

Adrenal Force, Allergy Relief, Super B 100, Boro Cal Plus D, Boro Cal-Mag, Gluco Poise, Liverplex, Hepatoplex, Omnizyme, Omnizyme Forte, Multigland, Osteo Forte, Nature Lax

Dramatic results are sometimes noted almost immediately when the right digestive aid is used according to directions. Remember that about 90% of individuals with gastric complaints exhibit symptoms commensurate with hypochlorhydria and about 10% with hyperchlorhydria. These products are designed so that one tablet taken about 10-20 minutes before a meal should suffice. Rarely, two tablets may be required.
