

Omnizyme[®] and Omnizyme[®] Forte

Simply the Best Proteolytic Enzymes Available in the World Today
(And At the Best Price Too!)

More Great Things from Rainrock!

Omnizyme[®] and Omnizyme[®] Forte are potent blends of vegetable and animal source proteolytic, amolytic and lipolytic enzymes. They also contain the important free radical fighters SOD and Catalase. These formulas also contain the important enzyme activator Glutathione as well as lyophilized calf thymus and Zinc.

Omnizyme[®] and Omnizyme[®] Forte are the culmination of more than a quarter century of experience in the proteolytic enzyme field. The formulas have evolved into the most potent and effective enzyme supplements available in the world without prescription. These enzyme formulations are simply without peer for those looking for a high-potency proteolytic and anti-oxidant formulation at an affordable price!

Omnizyme[®] Forte was the first and remains one of the few enzyme supplements to contain 45 mg of highly active α -Chymotrypsin, one of the most potent and long-lived enzymes available for oral supplementation.

The key to the effectiveness of any enzyme formulation is getting the enzymes absorbed so that they can be transported to the target site and activation when they get there. Omnizyme[®] and Omnizyme[®] Forte have been specially designed by a pharmacist and a biochemist to maximize absorption and ensure the sustained systemic effect of the enzymes.

Compare our Omnizyme[®] and Omnizyme[®] Forte ingredients (see the reverse) with the enzymes you currently use. Then compare the price. We believe that you will be impressed with both. Most importantly, we believe that you will be impressed with the results you will see. Give us a try then make the switch!

Omnizyme[®] is available in 90 tablet, 200 tablet and 400 tablet sizes.

Omnizyme[®] Forte is also available in 90 tablet, 200 tablet and 400 tablet sizes.

Ingredient List Omnizyme®

Supplement Facts		
Serving Size 1 tablet Servings per container: 90, 200, 400		
Amount per serving	% Daily Value	
		α-Chymotrypsin 3 mg #
		Rutin 100 mg #
		Lyophilized Calf Thymus 55 mg #
		Zinc Gluconate 10 mg #
		Superoxide Dismutase 50 mcg #
		Catalase 200 Units #
		L-Glutathione 10 mg #
Pancreatin (4X)	313 mg*	#
Papain	150 mg	#
Bromelain	150 mg	#
Trypsin	125 mg	#
Lipase	50 mg	#
Amylase	50 mg	#

*Equivalent to 1250 mg of Pancreatin
Percent Daily Values are based on a 2000 Calorie/day diet
RDI not established
Tablets specially coated for duodenal absorption

Ingredient List Omnizyme® Forte

Both Also Contain: Enteric Coating, Dicalcium Phosphate, Croscarmellose Sodium, Stearic Acid, Magnesium Stearate

Proteolytic enzyme therapy has, according to published reports, been used successfully in the following conditions (a small sampling):

- | | |
|---|--|
| <ul style="list-style-type: none"> ▶ Inflammatory Conditions ▶ Sports Injuries ▶ Sprains ▶ Strains ▶ Fractures ▶ Soft Tissue Injuries ▶ Pre and Post-Surgical ▶ Burns ▶ Slow Healing ▶ Arthritis ▶ Viral Infections (Herpes, etc.) ▶ Bacterial Infections ▶ Impaired Circulation ▶ Angina ▶ Arteriosclerosis | <ul style="list-style-type: none"> ▶ Atherosclerosis ▶ Blood Clots ▶ Endometriosis ▶ Dysmenorrhea ▶ Pancreatitis ▶ Neuritis ▶ Nephritis ▶ Prostatitis ▶ Dyspepsia ▶ Irritable Bowel Syndrome ▶ Inhibition and Reduction of Scarring ▶ Cataracts ▶ Any Other '-osis' or '-itis' Condition ▶ Digestive Disorders ▶ Neoplastic Disease |
|---|--|

Some of Rainrock Nutritionals' synergists for this formula are:

Bioflavonoid Complex, Cardio Complex, Cardio Complex HS, Chelaplex, Co-Enzyme Q10 (capsules or sublingual tablets), Grape Seed Extract, Green Tea Extract, Hypo Gestaid, Mega Gestaid, Pain Complex, Pancreas Complex, SOD/Lipoic Acid Complex, Virex Complex

Proteolytic enzymes aren't just an aid to digestion anymore. While Omnizyme® and Omnizyme Forte® are excellent for this purpose, they are also highly effective for systemic use against a number of stubborn and difficult to treat conditions. If these enzymes are to be used as a digestive aid the recommended dosage is 1 or 2 tablets just prior to a meal. For systemic use the dosages vary depending on the severity of the condition but tablets should be used as far from meals as possible.
